A MEMBER OF THE

American Federation of Mineralogical Societies

Sublette County Rock Hounds'

Gem & Mineral Show 2021

*Hosting the annual CONVENTIONS of the
American Federation of Mineralogical Societies
Rocky Mountain Federation of Mineralogical Societies*

June 18th, 19th, & 20th

at the Sublette County Fairgrounds
10937 Hwy 189,
Big Piney, Wyoming

Friday & Saturday 9-5, Sunday 9-4

*Dealers, demonstrators, exhibits, field trips, fluorescent mineral
display, kids' activities, food concession & more!*
Admission: \$2.00 adults, kids free

Contact: jimgray@wyoming.com or schafma1@hotmail.com

2021 STATE OF THE FEDERATION ADDRESS

I want to take the time to welcome you all to Wyoming, again, and to thank our show chair, Jim Grey and his crew for putting on a most incredible show and conference. I know this will be the case because they did a stellar job last year, even right in the middle of this whole pandemic thing. I am sure by the time the convention rolls around that things will be a lot more open around the country and we can all do more than we have been able to do for the last year. This is once again the big one as we are hosting the AFMS as well this year. We are also proud that our very own Judy Beck is the AFMS President this year so come out and help the RMFMS shine. I myself only have the regret that I couldn't do more during my presidency but I hope to stay on in some capacity and continue to help make the federations better and better. Maybe I can come back and try again when things are somewhat "normal" in the world.

I am still working and am considered an essential worker as a telecommunication technician. People want their internet and when everyone started working from home they wanted more, faster, better service. It was kind of hectic for the first few months but things have calmed considerably. I have only been able to go collecting maybe 4 times in this last year so that is another reason to look forward to the convention. We went on some really awesome field trips and had our own special guide for a couple of days to a couple of really cool locations. Thanks Scott for the great time you showed us. And then there was Kemmerer, that is a trip that was on a bucket list of places to go collecting and it did not disappoint. Donna and I both had a blast and everyone found something there to take home. Donna has also told me that Kemmerer was the most fun she has ever had collecting so you don't want to miss it this year.

I don't want to bore you all with a bunch of stories but I do want to thank each and every one of you that I have shared my journey with so far and I hope to continue riding with you for a long time. I had a whole lot of ideas coming in to this and hope to share them still as we come out of this hard time everyone has gone through. The one thing I have gotten out of this whole thing is that I have made a whole lot of lifelong friends and I know I will continue to make them as long as I am a part of this wonderful group of people. My challenge to everyone out there is to use your resources from the RMFMS and the AFMS to help build your clubs, make them stronger and secure the future of them. Remember, as with most things that our children are our future and you should try to get juniors involve with your clubs to ensure your clubs will not only survive but thrive as well.

Thank you all again and thanks to all and we look forward to seeing you in June, in Wyoming

Bob Regner
RMFMS President

RMFMS Information

The Rocky Mountain Federation of Mineralogical Societies (RMFMS) is one of the seven Federations that are members of the American Federation of Mineralogical Societies. The AFMS also has the California, South Central, Southeastern, Eastern, Midwest and Northwest Federations.

The RMFMS has approximately 9000 members within societies and clubs in thirteen states - Arizona, Arkansas, Colorado, Kansas, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah and Wyoming.

RMFMS Business

Each year the RMFMS holds an annual convention where business is discussed and voted on, and new officers are elected. It is held in association with a member club's Show. Clubs petition to host these shows and the Executive Committee selects them. Conventions are spread across the Federation so members can attend and visit different parts of the country when they attend the convention. Every seventh year the RMFMS hosts the AFMS annual convention in conjunction with the RMFMS convention and show.

Executive Committee and Delegates

The RMFMS is supervised by an Executive Committee, composed of elected officers and State Directors. All business is carried out in the House of Delegates meeting. If no member from a club can represent a club at the Delegate meeting, it can designate a proxy to voice their wishes. A good candidate for a proxy vote might be a State Director or another RMF officer attending the convention. An Information packet about the convention is sent to each club about two months prior to the meeting. Delegate, Alternate and Proxy forms are included.

State Directors

State Directors, who are members of the Executive Committee of the RMFMS, are members selected to help clubs within their state. If any club has a question or problem, a call to the SD may help solve the problem. If not, the State Director knows other people to contact for help. State Directors are encouraged to stay in Close contact with all of the clubs in their state to assist when needed. All State Directors contact information is listed in each published Officers List.

Rules to go by

If anyone is interested in what the rules for the RMFMS are, the RMFMS.org website has the By-Laws and Operating Procedures that can be downloaded. One copy of these documents should be in each club's library. Also in the library should be the RMFMS Articles of Incorporation.

Helpful Committees

There are also Special Committees and Standing Committees for the RMFMS to assist in running the Federation and keep all clubs informed about Lapidary interests. If a club or member has a question about a particular lapidary skill, piece of equipment, or needs a rock identified, there is someone on the Committees list to help with that. The list is in this publication, and appears monthly in the RMFMS newsletter.

Membership & Insurance

Clubs that are members of the RMFMS renew their membership each November. Membership costs for this year were \$ 1.50 per member, excluding life-time Members. The Federation also has a Liability Insurance program that each club has the option to participate in at the cost of 60 cents per member. For more information see the Insurance page in this booklet.

Program Library

The Federation has many sources of information and help for every club. One of the most helpful is the Program Library, composed of CDs, DVDs and slide programs that may be rented for a reasonable fee from the Program Library. The list of titles has been published to assist Clubs in selecting a program. These make good club programs at a very reasonable cost. Contact the Program Librarian, as listed in the RMFMS Committees list, to secure a program.

Membership Directory

Each Club also receives a copy of the annual Membership Directory, listing every club in the Federation plus other information about the RMFMS and the clubs. Clubs are listed by state, by city, and have the current officers and contacts. It also lists the dates for their annual show. If a member is going to be in a certain part of the country, they may look up the closest club and see if there are any field trips or shows on the schedule. Copies of the Directory are sent out after its publication, and extra copies are available for a small fee from the Supplies Chair.

Newsletters

The Rocky Mountain Newsletter is published 10 times a year, and is sent to every club. One or two people in the club receive the newsletter email. They are asked to forward it to all other members of their club. The newsletter contains informative articles from the RMFMS president, treasurer, and often other Committee Chairs. There is information about Federation contests such as deadlines, applications and tips for filling them out. After awards have been presented at the Convention, the results of the contests are included in the Newsletter. In addition to the RMFMS Newsletter, every club receives copies of the AFMS Newsletter that is sent to three officers of each club. This helps all clubs and members keep up with what is happening on the national rockhound arena. Both the RMFMS and the AFMS Newsletters may also be found on their respective websites. The AFMS also publishes the Uniform Rules that are the guidelines for competitive case judging. These may be downloaded from the AFMS website, but be aware: it is lengthy.

Youth Program

If your club has youth members, the AFMS has the Future Rockhounds of America program in which our Federation participates. This excellent program has themes, suggestions for leaders to carry out the program themes, and badges the young members may earn for doing specific tasks in each category. Information.

Scholarship Program

The Rocky Mountain Federation participates in the AFMS Scholarship Foundation program that clubs are asked to support financially. The Foundation provides two \$4000 scholarships annually to the six participating Federations.

Contests

One of the fun parts of the RMFMS has to be the contests held each year. Clubs can send entries into the publications contest, the website contest, the All American Club contest and the Programs contest. In addition, members can submit competition cases for judging. Winners for all of these awards are given out at the annual convention. There is more information on these competitions on following pages.

This has been a brief overview of some of the many things the RMFMS does for clubs and members. Be sure your club is participating by attending conventions and helping govern the organization, participating in contests to show off your hobby, and publicizing your club in your locality to let people know where to find more information about the earth sciences.

RMFMS Officers

The Executive Committee of the Federation shall consist of a President, Vice-President, Secretary, Treasurer, Historian, the last two past presidents and the state directors..

UNIFORM RULES COMMITTEE

This committee shall consist of five (5) members with at least one being, if possible, from each of the geographical areas within the Federation, i.e. the northern area being North Dakota, South Dakota, Wyoming and Nebraska; the central area being Utah, Colorado, Arkansas and Kansas; and the southern area being Arizona, Nevada, New Mexico, Texas and Oklahoma. If at all possible, at all times at least two members of the committee shall have served a minimum of two years on this committee. The President will appoint the committee.

Among other duties, the committee works with the Host Society to assist them in interpreting current AFMS Uniform Rules and in setting up rules needed to accommodate special types of exhibitor's interests peculiar to RMFMS gem and mineral shows.

PUBLIC LAND ADVISORY COMMITTEE

The Public Lands Advisory Committee consists of State Representatives, appointed by the President, from each state represented in the Federation. These Representatives report to the President, and the Committee does not have a formal Chair. Each Representative also may appoint additional members to their respective state Committees. The State Representatives and their committee members will be responsible for monitoring use, as it pertains to rockhounds and collectors, of public lands. Such land not only includes federal parcels such as that managed by the Bureau of Land Management and the U.S. Forest Service, but land managed by smaller entities such as states, counties, cities, and others.

Richard M. Pearl (1941-1942)

American Federation Code of Ethics

I will respect both private and public property and will do no collecting on privately owned land without permission from the owner.

I will keep informed on all laws, regulations or rules governing collecting on public lands and will observe them.

I will, to the best of my ability, ascertain the boundary lines of property on which I plan to collect.

I will use no firearms or blasting material in collecting areas.

I will cause no willful damage to property of any kind such as fences, signs, buildings, etc.

I will leave all gates as found.

I will build fires only in designated or safe places and will be certain they are completely extinguished before leaving the area.

I will discard no burning material - matches, cigarettes, etc.

I will fill excavation holes which may be dangerous to livestock.

I will not contaminate wells, creeks, or other water supplies.

I will cause no willful damage to collecting material and will take home only what I can reasonably use.

I will practice conservation and undertake to utilize fully and well the materials I have collected and will recycle my surplus for the pleasure and benefit of others.

I will support the rockhound project H.E.L.P. (Help Eliminate Litter Please) and will leave all collecting areas devoid of litter, regardless of how found.

I will cooperate with field-trip leaders and those in designated authority in all collecting areas.

I will report to my club or federation officers, Bureau of Land Management or other authorities, any deposit of petrified wood or other materials on public lands which should be protected for the enjoyment of future generations for public educational and scientific purposes.

I will appreciate and protect our heritage of natural resources.

I will observe the "Golden Rule", will use Good Outdoor Manners and will at all times conduct myself in a manner which will add to the stature and Public Image of Rockhounds everywhere.

AFMS LAND USE POLICY

1. Adherence to the AFMS Code of Ethics assures compliance with most statutes and regulations governing collecting on public lands and encourages respect for private property rights and the environment. Clubs are urged to read the AFMS Code of Ethics in at least one meeting every year, to publish the Code frequently in the club newsletter, and to compel compliance on club field trips.
2. Individuals and clubs are urged to write their elected representatives and land use management agency supervisors regarding issues of proposed legislation and enforcement affecting field collecting of minerals and fossils.
3. Individuals and clubs are urged to join and support activities of the American Lands Access Association (ALAA), a sister organization with responsibility for advancing the interests of earth science amateurs with legislatures and land use management agencies.
4. The AFMS will receive a report from ALAA at its annual meeting.
5. The AFMS endorses the principle of multiple uses of public lands as a guarantee of continuing recreational opportunities.
6. Wilderness and monument designations are inconsistent with the principle of multiple uses. In view of the vast amount of public land already designated as wilderness and monuments, future such designations should be minimal, taking into account the increased demand for recreational opportunities, including rockhounding, created by a growing population.
7. In furtherance of the principle of multiple use, the AFMS believes that laws, regulations and rules established by relevant governmental authorities should be designed to allow freest possible access to all public lands, coupled with minimal restrictions on the recreational collection of minerals, fossils, gemstone materials and other naturally occurring materials.
8. A right to collect minerals and fossils on public lands should be protected by statute,
9. The AFMS urges its members to work with any or all government authorities to achieve a good working relationship in order to improve the "Public Image" of recreational collectors.

AFMS SCHOLARSHIP FOUNDATION, INC.

By Richard Jaeger

Organization:

The AFMS Scholarship Foundation, authorized in the by-laws of the American Federation of Mineralogical Societies, was incorporated as a Minnesota corporation on March 19, 1964, and is tax exempt. Six of the AFMS Regional Federations participate in the Foundation. The South-eastern Federation has its own scholarship foundation and does not participate.

Board of Directors:

The Board is made up of the President and Vice-President from each of the six participating federations. They elect a President, Treasurer, and Secretary each for a term of two years. The Vice President is automatically the President of the AFMS. The annual business meeting is held once a year immediately after the close of the AFMS annual business meeting.

Contributions and Gifts:

Contributions or gifts to the Foundation should be sent to the Rocky Mountain Federation Scholarship Chairman: Richard Jaeger, 3515 E. 88th St., Tulsa OK 74137-2602. Please make the checks out to the AFMS Scholarship Foundation. Gifts from individuals are tax deductible to the donor.

Recognition to Donors:

Special recognition is given to each Federation Club when contributions equal or surpass \$1.00 per dues-paying member. This recognition begins with the 100% when contributions total \$1.00 member for the total number of club members and can advance on to 200%, 300%, etc. The percentages are based on the number (including junior members) in the Club as shown in the current year's RMFMS Directory, not the number of members there happens to be in the Club at the time the check is sent in. This basis is used consistently for all clubs throughout the Federation and remains in effect until the next Directory comes out. The percentages for all of the contributing RMFMS Clubs are given on a following page.

Selection of Beneficiaries:

Each of the six Regional Federations has the privilege of selecting their own Honorary Award Winner. This individual then has the distinction and privilege of selecting an institution or institutions from within the boundaries of the Federation. In cooperation with that institution, the honoree chooses the two students who each receive a scholarship grant \$4000. This method grants to each Federation the privilege of having its own institution and students as recipients of the Foundation's grants.

Honorary Award Recipients and Grants to Students:

Grants made by the Foundation are restricted to graduate students who are majoring in one of the Earth Sciences, since our joint interests lie in this field. Currently, two \$4000 grants are given each year in the Rocky Mountain Federation. The first Foundation Scholarship Grant became possible in 1965. Our first Honorary Award Winner was Dr. Richard M. Pearl, associate Professor of Geology at Colorado College. The student he chose to receive our first grant was Victor Lee who was attending the Colorado School of Mines. The AFMS Scholarship Foundation has awarded more than \$1.7 million since that time.

RMFMS Supplies

Items for Purchase The following items are available for purchase from the RMFMS Supplies Chair:

- o RMFMS Directory \$5.00
- o RMFMS Lapel Pin \$2.00
- o RMFMS Patch \$3.50

Please make checks payable to RMFMS. Send your request and check or money order to Supplies Chair.

Downloadable Free Items

The following items are available for free download on the Rocky Mountain Federation of Mineralogical Societies website www.rmfmts.org

- o RMFMS Articles of Incorporation and Bylaws
- o RMFMS Operating Procedures

The following items are also available for free download on the American Federation of Mineralogical Societies website: www.amfed.org.

- o AFMS Uniform Rules
- o AFMS Uniform Rules Update o AFMS Guidelines for Exhibitions
- o AFMS Guidelines for judges
- o AFMS Approved Reference List of Fossil Names o AFMS Approved Reference List of Lapidary Names
- o AFMS Approved Reference List of Mineral Names
- o AFMS Guidelines for Bulletin Editors

RMFMS Liability Insurance

RMFMS offers a voluntary liability insurance program which protects the club against suits from non-members. The commercial general liability coverage is available for a nominal fee. This would protect a club or club member from a suit by someone who might be injured due to alleged negligence during a club activity. The policy excludes any liability involving cars.

Non-members who submit a claim will have their case reviewed by the insurance claims department. Only then will determination of this situational coverage be made.

An insured member club may obtain Certificate of Insurance from RMFMS Insurance chair. This proof of liability insurance may be specifically issued for an event or location to be used by the RMFMS member club. This 'Additionally Named" form must be submitted and approved well in advance of the event. An application for this "Additional Insured" coverage follows.

Other exclusions include damage or injury arising from liquor use, pollutants, cars, boats, airplanes or damage to property in your care, such as tables rented for a show. Items not covered also include falsely describing a product, injury to a club member by another club member, or damage to club property by a club member or other willful acts.

Federation Contests

Fun Stuff: Rockhounds are a fun-loving group. And they love to let people know about their hobby. The Rocky Mountain Federation of Mineralogical Societies (RMFMS) encourages this love-to-tell by sponsoring various contests each year. It also helps to highlight the various clubs in the Federation and the various projects their members are doing. The contests run all year, and usually starts having entry information in the fall with announcements in the Newsletter of how and what to enter, with all deadlines listed. All of this is also posted on the website. After judging, awards are presented at the Annual Convention. There is a "Breakfast with the Editors and Webmasters" for the publication awards, and all others are presented at the Awards Banquet. Of course it is GOOD to get trophies and certificates to take back to your club and brag about. And it makes great information to put into local papers to get publicity for your club. Here is a breakdown and brief description of the available contests.

Publications: The largest group is the Publications Contest. This includes club newsletters in classifications of Mini, Small and Large bulletins. In addition, there is a New Editor category for the person who is just starting to get their feet wet with the newsletter. Articles published in the newsletter may be entered in two levels; for the adult author there are the Features category of humor, technical, historical, and travel. Adults can also enter the poetry, drawn features, puzzle or quiz and photo-story categories. The Juniors (under 12) and Juniors (12-17) can enter written articles, drawn features, photo-story and poetry divisions. There is a separate division for other publications such as Show Directories, Membership Information, Show fliers....any other publication a club produces. The top three winners in each category are forwarded for entry into the AFMS contests. Specific rules and forms for entering may be found on the RMFMS website. All American Club Contest In addition to Publications, clubs are encouraged to enter the

All American Club Contest: This is where a club keeps a journal or scrapbook of the year's activities. These books are a great addition to the club's library to keep up with the history of your club. This is not technically a contest, but each club's entry is judged against a set of national standards for awards. Entry forms with suggestions for the book are on the RMFMS website and the AFMS website. Winners are announced at the Awards Banquet at the Convention. The top three RMFMS winners are submitted to the AFMS contest.

Website Contest: Just about every club has a website, or should have. So of course there is a Website Contest. The webmaster can get rules and entry forms on the RMFMS website, or on the AFMS website. Entry is suggested by electronic form, and the information is on the entry form. There are also many suggestions for what makes a good website along with the contest entry form. Website winners are announced at the “Breakfast with Editors and Webmasters” at the RMFMS Convention. Top three RMFMS winners are forwarded to the AFMS Website contest.

New Program Contest One of the nice ways to get new materials for every Federation’s Program Library is through the Program Contest. Members are encouraged to put together educational video programs (using CDs or DVDs) that they make on topics revolving around the earth sciences. Things like travelogs for rocks, exploring a specific kind of rock, or documenting a rockhounding trip of importance- all make excellent programs. The winners of this contest are announced at the RMFMS Awards Banquet, and the top three advance to the AFMS contest. Rules, suggestions for excellence and entry forms may be found on the RMFMS and AFMS websites. AFMS winners are duplicated and supplied to each Federation’s Program Library.

Competitive Display Cases Contest One of the more personal contests is the Competitive Cases that are installed and judged. More members should be putting cases together to encourage interest by members and non-members in our hobby. In addition to being very eye-catching, cases are usually very informative. Cases can be entered by adult club members, junior club members, and by clubs, themselves. The Uniform Rules Committee has trained and certified people to judge the competition cases, and the published guidelines must be strictly followed. The rules are available on the AFMS website. (Note: they are lengthy.) However, the scope of the cases is wide, from thumbnail specimens, finished cabochons, jewelry, beading, rocks of a specific genre or from a specific location...all are good types of cases. And entries can be Novice Class up to almost professional class. Winners of the RMFMS competition are announced at the Awards Banquet, and they can advance to the AFMS competition.

Rockhound of the Year: Every club should be recognizing the good works of their hard-working members. One way to do this is to submit their name for the AFMS Club Rockhound of the Year (ACROY) recognition. The person or persons selected by a club are submitted to the RMFMS ACROY chair who sees that those being recognized are published in both the RMFMS and AFMS newsletters. Although not a contest, every ACROY is recognized at the AFMS banquet with a certificate.

AFMS Future Rockhounds Badge Program

The Future Rockhounds of America Badge Program began in 2004, with 9 badges initially offered in all areas of rockhounding to club-sponsored young people's groups. The program, free to all affiliated clubs and their youth, is underwritten by the AFMS Endowment Fund. A complete Future Rockhounds of America Guidebook is offered online at the website amfed.org or may be obtained by contacting Jim Brace-Thompson, AFMS Junior Activities Chair.

Young people complete three activities to earn each merit badge. Those who complete 6 of the 15 total badges also receive a Rockhound Badge. A single child is enough for a club to get involved with the FRA program, Thompson says. There is no requirement for a structured youth program within a rock club in order to participate. "The number one goal of AFMS/FRA is to reach out to as many kids as possible to fan whatever budding interest they may have in rocks, fossils and lapidary arts," he explains.

If your club doesn't HAVE children, do as a club in Texas did—reach out to Boy and Girl Scouts, or start a geology club in a local elementary school or use the badge activities in an after-school program. Contact Jim Brace-Thompson 805- 659-3577 or jbraceth@roadrunner.com. His address is 7319 Eisenhower St., Ventura, CA 93003.

Printing a Booklet from Adobe

Formatting a large document to print as a booklet is Green. It saves about 75% of the paper that would be used is printed single sided on a full sheet. It's best if you can keep it at a page count divisible by 4 as every 4 pages equates to 1 sheet of paper being used.

It is relatively easy to print any document as a booklet from Adobe. Below are the instructions.

1. Open the document in Adobe Reader.
2. Select File/Print
3. Uncheck Reverse Pages (if necessary)

Page Scaling: Booklet Printing
Booklet Subset: Front Side Only
OK

After the front of the pages have printed:

Remove pages from output tray & put back on top of the input tray exactly as they came out, with the printing on top.

Back in the document...

1. Select File/Print
2. Check Reverse Pages

Page Scaling: Booklet Printing
Booklet Subset: BACK Side Only
OK

If you fold the resulting stack in the middle you have a perfect booklet.
